Action: William - contact Chad Morrell, get a copy of the “power??” easement, and then put it on the survey with Terrain.

SCL records indicate an existing easement over/near the West property line. Please confirm with SCL_RealEstateServices@seattle.gov or contact Chad Morrell, chad.morrell@seattle.gov and show the correct location of our easement and existing service.
Please note that construction of any permanent structure within a Seattle City Light (SCL) power easement is not allowed without SCL’s prior written consent.
